

**PROGRAM EXECUTIVE OFFICER
INTELLIGENCE, ELECTRONIC WARFARE AND SENSORS
Fort Monmouth, New Jersey 07703-5301
November 10, 2004**

Dear Mr. Anderson:

I want to take this opportunity to thank you for the magnificent manner in which your company has contributed ADOCS engineering support to our joint and coalition war fighters in theater. Your presence and support actions truly make a difference.

The potential danger that your employees face in Iraq and Afghanistan is omnipresent and your Field Service Representatives (FSRs) are contributing greatly to the war fighter. Their commitment, positive attitude and technical talents are critical in providing new capabilities to the Multi National Corps-Iraq and U.S. Central Command's overall Time Sensitive Targeting efforts. Furthermore, the day-to-day administration and support of the Automated Deep Operations Coordination System (ADOCS) that your folks provide are pivotal to the continuing success of DOD's operations in Iraq.

Dan Rivera, with his recent close encounter, deserves special recognition for his absolute dedication in a very difficult, demanding environment.

In the end, your company makes a real difference. Again, thanks for a job well done. Your outstanding performance reflects great credit upon your company, IEW&S, JPSS and our nation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ed Bair', written in a cursive style.

Edward T. Bair
